

PRESS RELEASE

The ProHost® Handy Supplier will be featured at the New York City International Hotel/Motel & Restaurant Show, November 11-13 in booth number 2572

A recent trend in the hotel industry is luxury boutique properties. The ProHost® Handy Supplier is a solution to the cumbersome “cartless” method. Hostar International, Inc. will feature this item at the IH/M&RS trade show in New York City at booth 2572.

Handy Supplier

The ProHost® System for boutique hotels, featuring the Handy Supplier is an ideal solution for luxury boutique properties looking to obtain the “cartless” appearance. Slim enough to go into guestrooms during the cleaning process, the Handy Supplier allows housekeeping operations to increase productivity while remaining invisible to guests. The program increases productivity by providing room attendants with an ergonomic work station that will minimize the amount of trips to the housekeeping closets. A typical “cartless” system may require up to five trips per room cleaning. The ProHost® Handy Supplier provides small linen and terry, amenities, and cleaning tools, reducing unnecessary trips during the cleaning process.

Hostar’s Boutique program featuring the Handy Supplier provides hoteliers the opportunity to maximize efficiency in back of the house operations. The ProHost® System enables hotels to reduce inventory loss, job related injuries, and labor costs. In addition, hoteliers are able to operate at a lower par while extending the life of the linen.

The Company

Hostar International, Inc. provides material distribution solutions for hotel housekeeping and food and beverage operations. The company offers a range of services and equipment including process flow analysis, installation and training services, system design, and custom configured equipment. In business since 1989, Hostar’s worldwide customer base ranges from 150 room luxury boutique hotels to 3,000 room mega-properties.

Sales representative offices are located in Dallas, Dubai, Los Angeles, Macau, New York, Seattle, Singapore and Sydney. ProHost® equipment is assembled and shipped from the Hostar facilities in Newbury, Ohio, USA.

PLEASE VISIT US AT BOOTH 2572 AND A HOSTAR REPRESENTATIVE WILL BE HAPPY TO ANSWER ANY QUESTIONS YOU MAY HAVE
