

PRESS RELEASE

The ProHost® Minibar Mobile will be featured at the New York City International Hotel/Motel & Restaurant Show, November 11-13 in booth number 2572

Due to the recent surge of inquiries about Minibar Mobiles, Hostar International, Inc. will feature this item at the IH/M&RS trade show in New York City at booth 2572.

Power-Assist Mobile Supplier

ProHost® Minibar Mobiles, from Hostar International, Inc., have revolutionized the guestroom honor bar restocking process. ProHost® Mobiles come in a variety of heights and with or without the Power-Assist option. The large capacity Minibar Mobile Supplier makes it possible to cover an entire assignment without reloading throughout the day. Teamed with the Power-Assist option, ProHost® Minibar Mobiles enable attendants the opportunity to move a fully loaded Mobile from room to room with just the touch of a button. **The Power-Assist option helps reduce work related injuries, resulting in a reduction of complaints of back strain and fatigue** caused from pushing and pulling

overloaded carts stocked with supplies. The smaller, lighter Minibar Junior Mobile Supplier maintains an inconspicuous profile in the guest corridors and keeps items organized and secure. All ProHost® Minibar Mobiles feature a lockable tambour door that ensures inventories are secured at all times, reducing unaccountable losses.

The Company

Hostar International, Inc. provides material distribution solutions for hotel housekeeping and food and beverage operations. The company offers a range of services and equipment including process flow analysis, installation and training services, system design, and custom configured equipment. In business since 1989, Hostar's worldwide customer base ranges from 150 room luxury boutique hotels to 3,000 room mega-properties.

Sales representative offices are located in Dallas, Dubai, Los Angeles, Macau, New York, Seattle, Singapore and Sydney. ProHost® equipment is assembled and shipped from the Hostar facilities in Newbury, Ohio, USA.
